DISTEMPER IN CATTLE—PREVENTATIVE.

MESSRS. EDITORS:—Having seen it stated the past year that the distemper prevailed amongst the cattle around Richmond, as also in some other places, I feel disposed to republish the substance of a communication of mine in the *Southern Planter* for 1854, which, as a preventative, I have never yet known to fail.

About the first week in May procure a trough to correspond in size to the number of cattle; place it where they are penned, and bore a hole through the bottom to let off the surplus water after a rain. Fill it nearly full of red clay, then put on a liberal quantity of salt, and when the cattle are penned at night, they will invariably go to the trough and lick to their satisfaction.—The first rain that falls the salt will saturate the clay, and the cattle will consume the whole of it. This remedy must be continued until the first hard frost.

My father was the first that I know of who adopted this treatment, he having heard that cattle afflicted with distemper had been known to resort to red clay and get well. He, I suppose, recollecting that nature often performed a cure beyond the powers of art, salted his cattle some two or three times a week on a red galled spot, and although his neighbors cattle were dying rapidly around him, and that for several years, yet he never had a solitary case amongst his stock. For some two or three years he kept them in his enclosures, but after this, in consequence of an imperfect fence, his cattle would go on an adjoining common, and roam with his neighbors' distempered cattle from week to week, yet they entirely escaped this infectious disease. These facts speak for themselves, and go to prove that my father's remedy is a specific to stay this fatal malady.

An uncle of mine told me years ago, that the distemper being amongst his cattle, one of his milch cows was taken with the disease, went off, and when found, was in a gully eating red clay, and got well.

One of my sons at one time lost all his cattle except a milch cow, and when taken with the disease she went off, was gone several days, and when found, was in a gully eating red clay, and she got well.

Here we have the instincts of nature beautifully exemplified, and we may add, the dog, when sick, seeks relief from herbs, and the guayakil, when bitten by a serpent, finds an antidote in a certain plant.

In the Southern Planter for '45, "lime water is recommended as a sovereign cure for distemper even in the last stages of this disease, and by the way, this is said to be the best known remedy for distemper in horses.

The late Dr. Wm. S. Morton, in a communication to the Southern Planter in '54, on distemper in cattle, said: "I strongly suspect that what we call distemper, is the bloody murrain of Scotland and other parts of Great Britain, and that it was carried to North Carolina by Scotish emigrants.—The above suggestion I have reason to believe is correct, as I once lived in North Carolina, and from authentic information, I learned that the first cases of distemper occurred in that State near Fayetteville, which was settled principally by the Scotch. Hence the new name—"Carolina distemper." W. R. HATCHETT.

KEYSVILLE, Va., April, 1869.

*Half bushel of water to a peck of lime; let it stand until the water is clear, then pour off the water, and drench with a quart twice a day, until the animal recovers.—Three or four doses are generally sufficient.

THIN SEEDING.

As our readers are aware, English farmers have of late years experimented considerably in the matter of thin seeding, especially with the wheat crop. Mr. Mechi has long been the strenuous advocate of the practice.

A member of the Olmskirk and Smithport Agricultural Society, recently reported an experiment of this kind in which he sowed but a peck to the acre. It was dibbled in drills, with a machine adapted to the purpose, in one and a half hours. Manure was sown upon the wheat soon after it came up, and it received four days work weeding. His return was 48½ bushels of 66 pounds, besides about 2 bushels of light wheat, suitable for feeding. The experimenter remarks as follows concerning the practice:

I have heard it objected to this sowing that from the want of shelter of thickness, the crop would be late, and which, in ordinary seasons, would be an important consideration; but mine was of the first ripe in this district. I am so thoroughly satisfied with the result of this experiment, that I have this season sown one field which not in very good condition, with a half bushel per acre. I believe that the system requires only to be tried to be generally adopted. It is a subject of national importance, as the amount of grain now wasted in overmowing is enormous, as the following calculation will show:

"By the Board of Trade returns just published, the acreage under wheat in Great Britain this year was wheat in Great Britain, this year was 3,646,260 acres, the average sowing on which would be at least 2½ bushels (allowing half a bushel, or double mine,) would give two bushels per an acre saved, or 7,295,520, at 9s per bushel—£3,281,434 sterling.

Governor Hayes will not have a clear field at the next Ohio Republican Convention. The friends of General J. A. Garfield are anxious to have him contest the nomination with Hayes, and a Republican journal, the Painesville *Telegraph*, also talks about Robert C. Schenck and Samuel Galloway.

The California State election in October will be held to fill two vacancies on the bench of the Supreme Court, the terms of the present incumbents expiring. District and county judicial officials and State Senators will also be chosen. The Senators elected this year will participate in the choice of the United States Senators who will succeed Mr. Cole in 1873.

The terms of eleven State Senators expire this year in Pennsylvania, and their successors will be chosen in October. Seven are Radicals and four Democrats.

Immigrant wagons filled with men, women, and children, of all ages and sizes, are pouring into Minnesota from the East, North, and South.

Largest amount of Losses to Widows and Orphans!

The Largest Revenue to the States. And has by far the largest number when compared with 58 Companies reported officially by the Commissioners of New York and Massachusetts it will be seen that the Ætna ranks as one of the first Companies of the Continent. But two of the fifty-eight Companies permitted to do business in New York and Massachusetts had so large an income for the year 1868; but two had so large a number of Policies in force, but one among all those incorporated under the laws of the State of New York had so small a per centage of Expense to Income during the year 1868.

Its expenses are lower than most Companies', and consequently its ability to make and pay liberal dividends to the insured is greater than that of most other Companies. It is one of the great Companies of the land in Income, in Assets, in Number of Policies, in Amount Insured, in Solidity and Strength, in Soundness, Cheapness, Promptness, and Success. Persons contemplating this mode of investment in the future as in the past would do well to examine the claims of all and take a policy accordingly.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

THURSDAY, JUNE 3, 1869.

WHAT WE NEED AND MUST HAVE.

Before we can prosper as a State, we must have a well regulated system of labor and more of it, and more moneyed capital. These are indispensable and the prime question is how may they be attained. We confess we see no hope of doing so, while the management of the State continues in the hands of men who have neither brains, principle or means. We have supreme contempt for those driveling asses who are eternally prating about prosperity and what can be done and will be done under the existing Radical administration of the State government. Why what do we see? Let us look coolly at, and state the facts as they are. The State Government is new and untried, and the indications are that it is not adapted to the condition and wants of the people; it was not framed by representatives or responsible men; it was framed, in the main, by very ignorant men and the leading ones of them were carpet-bag adventurers; it was framed by men who do not labor, who own comparatively little property, and have no experience; men who were moved by ungovernable passions, and were strangers to wisdom. It was framed, too, at a time of great public distress, and under such circumstances as prevented any just expression of public sentiment and the elevation to power of men who could inspire confidence at home or abroad. This government was so framed as to afford no tolerable degree of protection for labor or property, and what is the result? Why this, the Legislature is, for the most part composed of a class of men distinguished alike for their ignorance and want of principle, and property, and they became at once the dupes and willing tools of unprincipled men, and the most stupendous schemes have been set on foot to plunder the people, and, as a consequence, perpetuate their impoverishment. At the time this new government went into operation, the public debt was about thirteen millions of dollars, and this could have been easily managed by wise and prudent men. But, in less than one year, this debt is increased to the enormous sum of *forty millions* of dollars, and the bonds of the State selling now at less than fifty cents to the dollar, with a downward tendency, and no small portion of this debt has been used to corrupt the Legislature, and other officials. Where is the money, the proceeds of this tremendous debt? What Railroad or canal has been built, and when will any be built with the State bonds at such prices? Why, they will hardly sell for enough to pay *stealage!* Will not this terrible state of things destroy public confidence in every respect? The people at home and abroad have no confidence in such rulers, and these rulers are the consequences of a Constitution that fails to protect labor and property.

Now the property holders and tax-payers did not elect the Governor and Legislature, and we may add, the Judges of this State, and hence they are independent of the property holders and tax payers; but they have the governmental power to make the tax-payers and property holders pay taxes without limit. Tax payers and property men seeing this are not going to stay here under such circumstances, much less will they come here and bring their capital, property and labor, especially when they can go elsewhere and find settled government free from debt and embarrassment. Men cannot be relied upon to support or administer a government who have no interest in it. The present administration of our State government have in the main but one interest in it, and that is, to get all they can from it without regard to consequences. They actually do not seem to have foresight enough to see that if they do not cease these plans and practices of prodigacy, by and by they will have no Treasury to plunder. We tell the people that they need not expect prosperity until a class of men go in to govern who have some interest in the government and the people and who can inspire public confidence at home and abroad. There is no hope in the present administration. The present Chief Executive and all his subordinates seem to labor in every practical way to destroy public confidence, to destroy the public honor and humiliate, and perpetuate the impoverishment of the people. The whole course of legislation shows an utter disregard of the public weal or protection. We venture the assertion now that such loose, uncertain and indefinite statutes were never passed by any legislative body in this country, as by our Legislature, and we undertake to state another important fact, that in every single statute passed appropriating money there is no reasonable provision for securing the interests of the State. If any one has leisure to do so, let him get the various railroad acts and see if we are not correct. There is virtually no protection for the State. The provisions are such as to hasten the placing of the bonds of the State too often in the hands of persons, to say the least, not qualified to use them for the interest of the State or the Railroad Companies. There must be a change or there is no hope for the future.

GENESEE.—At a late meeting of the New York Fruit Grower's Club, Mr. Thos. McElroy, European Seed Grower and Importer, donated, through them, over $3,000 worth of seeds, for free distribution in the Southern States.

LAWLESSNESS.

For some time prior and since the close of the war, the counties of Craven, Carteret, Jones, Onslow, Lenoir and Greene, seemed to be the theatre of an amount of lawlessness and crime, unheard of before in this State. The worst scurf and *debris* of both the Federal and Confederate armies, seemed to have coalesced in that section, and formed a band of horse thieves and cut-throats, whose depredations were a terror to the whole region. Some of the most wanton murders and burglaries were committed, and it seemed that they defied detection or arrest by either the civil or military arm.

For the last eighteen months matters had become more quiet, and more recently their depredations seem to have been confined to Jones county. The killing of Col. Neathercutt, the Foscue family, and one or two others seems to have kept the blood of the more reckless still boiling, and recently the murder of other parties has increased the excitement. We regretted deeply to hear of the killing of Sheriff Colgrove, of Jones Scarcely any thing but the most flagrant violation of official duty and the prostitution of one's office to the worst purposes, can palliate much less justify the enormous offence of killing an officer of the law. Men, like our people, inured to the custom and habit of obeying, scrupulously, an officer of the law, must have very great provocation, before they can countenance or justify or palliate so great an offence. No man, however, is safe in a community, where horse thieves and robbers congregate and have been permitted, for years, to carry on their depredations.

We have heard, however, of several instances in the State, in which carpet-bag and scallawag Sheriffs and Deputies seem to have combined to distress and worry the people, needlessly pressing their property to public sale for cash, and subjecting them to great loss. Public officers who do this not only subject themselves to merited censure, but they may expect fierce retaliation in most communities, where the people are deeply involved and sorely pressed. It is bad enough, at the present time, for the people to submit to the necessary and forbearing execution of the law in regard to debtors, but the attorney or public officer, who adds to his proper duty the spirit of a Shylock, and who determines to crush every one in order to raise himself, may well expect the day of retribution at no very distant day.

The facts connected with the killing of Sheriff Colgrove, nor the developments since, do not enable the public to judge correctly of the animus which prompted it, nor do they lead to a discovery of the perpetrators. The act itself was a high crime, a heinous offence, which deserves punishment, but the summary manner in which the colored and white friends of Sheriff Colgrove are acting, professedly with the view of getting at the guilty party, is outrageous, lawless and wicked, and ought to be suppressed. When the Foscue family and Col. Nethercut were murdered, no friend of theirs was disposed to arrest and punish persons upon mere suspicion. No one was ready to avenge their deaths by burning and robbing and killing persons, before due course of law was taken. The reported conduct, therefore, of the negroes, negro militia, and white friends of Sheriff Colgrove, in summarily avenging his death, is of the most horrid and lawless character, and should be arrested at once. If justified by the authorities, the next thing we shall hear of will be open civil war in the State.

THE ACTS OF ASSEMBLY.

The laws of this State are in a wretched state of uncertainty. We do not suppose that any lawyer in the State can tell, with any tolerable degree of certainty, how the statute law stands. This is, in a great measure, the result of the introduction of the New York system, a code remarkable for its looseness and uncertainty and confusion. But it is owing, too, to the loose and hasty statutes passed by the Legislature, which really had no capacity for framing statutes. This evil is greatly aggravated by the strange delay in publishing the laws passed by the Legislature. Why are they not published and sent out? There has been time enough. We suspect there is some carpet-bag trick about the matter.—The Secretary of State has brought out his book of forms for Courts and sells that as if it had passed the Legislature, although it did not, and, thereby, he fills his pocket in an illicit way; then he publishes, in advance of the laws, the *forms* for Justices of the Peace, and he fills his pocket with that. We notice, too, that the acts are published in the *Standard* newspaper, and the people are called upon to buy that, in *order to get the laws*. Now we ask, why are the laws not published according to law? Can't any one see the cheat and swindle in this matter and all in the interest of the carpet-baggers. Verily, they are a shrewd set of *Yankees!* Now, we know that these acts could have been sent out before this, if proper effort had been made, but we predict it will be some time yet before the acts come out as they ought to do.

On the Monday morning the Legislature adjourned, an act was passed through the Legislature authorizing the Governor to appoint the State Printer, and giving the Printer the binding of all old public documents, &c., &c., and forthwith his Excellency appointed Gen. Littlefield State Printer. This is another carpet-bag game, and this is the way, too, the Governor gives carpet-baggers the means of preying on our people.

Well, General, as long as you are State Printer, we ask, when will the acts of the Legislature be out? Why have they not been out before? And don't fly into a fury and curse us and threaten to shoot us, and say that we have invaded the *social circle*. Just answer these questions quietly and excuse yourself as well as you can. As for you Governor, for all these things you shall be brought into judgment, unless by and by you fly the State with the carpet-baggers.

PEN AND INK SKETCHES OF THE UNIVERSITY OF NORTH CAROLINA, AS IT HAS BEEN.

DEDICATED TO THE PEOPLE OF THE STATE, AND TO THE ALUMNI OF THE UNIVERSITY.

NO. II.

THE NEW DR. AND PHI. HALLS.

In 1859, the corner stone of two additional buildings which were to contain the Libraries and Debating Hall of the two Literary Societies and also to afford new recitation rooms and dormitories, were laid. The number of students which had fluctuated a good deal during the first ten years of Gov. Swain's administration, had however on the whole steadily advanced, and for several years previous to '59 had exceeded the capacity of the college buildings. And the students accordingly had overflowed into the village, occupying every spare room and office. This led Chapel Hillians to the erection of neat little two roomed offices all over the town. Whoever was lucky enough to have a convenient corner in his yard, or a vacant lot, filled it up with an office, or two and forthwith rented the same at any price he chose to ask. This soon became a popular way of investing surplus capital.—The new college buildings it was supposed would ruin these investments, but it seems they did not, for being warmed with furnaces they were found on trial to be unpopular as dormitories with the young men. The new Debating Halls were splendid apartments, and elegantly furnished by their respective Societies.

THE PORTRAITS.

Not the least interesting objects of attention about the University buildings are the portraits of distinguished North Carolinians which adorn those Society Halls. There are Davie, and Blakely, and Wm. R. King, and Mangum, and Hawks, and Dobbin, and Badger, and Mebane, and Polk; there too are Gov. Swain, and Drs. Caldwell and Hooper, and Mitchell, and Phillips. Many of these are valuable not only as admirable likenesses, but as fine paintings and by distinguished artists.

Do these faces which seem instinct with life look down unmoved on the silent desolation which now surrounds them? Have no glances of wondering sorrow and dismay been exchanged among these men, ornaments of the State while they lived, the pride and boast of their respective Societies, to whom the honor of their University was dearer than life? If ever "more their echoes talk a long the walls" methinks one may now hear the accents of indignation and contempt in those Halls; if ever shadowy forms are seen to glide along the corridors, these empty buildings are now haunted. Into what hands have we fallen,—they may well exclaim, what poor and beggarly pretense is this of a University! What daily farce is this upon which we are compelled to look? Is this North Carolina's gratitude to us? Is this her veneration for our memories and for the precious heirlooms which which we bequeathed her?

Ah no! If there be any one redeeming thought of the present situation of North Carolina's University, as contrasted with it as it once was, it is to the fact that North Carolina as a State has had no hand in its degradation. So far she is clear, and stands aloof, "consenting not to the counsel and deed of them." As yet, she looks on, in significant inaction. But the day will come, ye fathers of the State, when with sounds of rejoicing and tears of gladness we will go up to place our University once more in hands worthy of the trust, fit to succeed those who are gone; and who will restore that ancient seat to its former pride of place and lift it to an even higher stand in our confidence and affection. Till then, North Carolina will be patient. She will do nothing unworthy of herself, or of her fair renown in the past. Her strength, in regard to the University is, for the present, *to sit still*. Let those who have been placed there now by the blind folly of party and who are endeavoring to carry on the farce of a political institution of learning, stay there if they choose and eat the bread of idleness at her expense. North Carolina will see with a smile that they do it in *idleness*.

THE UNIVERSITY MAGAZINE.

In 1842 3, the first series of the North Carolina University Magazine was issued edited by a Committee of the Senior Class, and supported by nobody in particular.—Under the latter condition therefore, it lived but two or three years. After the manner of College Magazines it referred frequently to Thermopylæ Pericles, and the Gracchi; it dreamed its "Dreams"; inscribed "Lines to Miss ——"; and sang halting measures in praise of "Long ago" and "Never more." All young people are occasionally given to melancholy. There were also elaborate reviews of Byron, Shelley and Macaulay, and "Papers" touching certain statesmen, the heroes of College imagination. I remember No. 1, was devoted to the merits of "Hon. Lewis Cass, the first of living American geniuses."

In 1851 2 began the second series, which as long as it continued in existence,—till the outbreak of the war—was well sustained by the public, and bore the impress of Gov. Swain's guiding hand. It took a very keen interest in it. Every number contained something from his stores of the Revolutionary history of the State, and though a young lady did say once that there never was anything in the University Magazine but dry stuff about the War of the Regulation, yet I will venture to say that it is to its pages, disregarded in their day, that the future historian of the State and the University will turn for much of his rarest material. Even now enquiry is being made for it, and stray numbers are picked up eagerly. There was visible all through the course of this Magazine's career, a marked improvement from year to year. There was also a marked improvement visible in the tone of College. The young men were more amenable to public opinion. Things that were done openly and without rebuke in 1845, would have been generally condemned in 1855, and things that were tolerated in 1855 would have been utterly scouted among the students in 1860.

AS TO MORALITY.

And this brings me to a rather delicate subject of consideration, and yet it is a subject that needs airing. It has often been urged against Chapel Hill that there was more vice, profligacy and dissipation of every kind going on unchecked there, than in most other Colleges. I do not claim to be well posted in such matters. There was no doubt at times, a good deal of half hidden dissipation, but I will venture to say, not more than at other large Colleges. Not so much as at some. What was wanting at Chapel Hill was a higher tone among the students; more manliness of thought and conversation—more *gentle* manliness. "They were entered there too young, as a general rule." When Gov. Swain could get a senior class of young men older than the average, he always said all College went on well. It was the senior class who gave tone to College, and it was a dozen or two seniors who led the class. The class of 1853 was such a one. It contained many young men who were over 20 years of age when they joined the College, and who were of more than average maturity of mind, and Prof. McIver was one of its best members. He, it may be said in passing, is the only man now in the present "Faculty" at all fit to be there, and he will best secure his reputation in North Carolina by being the first to get out of it. As an old friend said to him last week on first meeting with him after many years: "Prof. McIver I am sorry for to see you here."

Of all the members of the Faculty that I have ever known at Chapel Hill, Dr. Hubbard, Prof. Charles Phillips and Prof. Hepburn did more by their intercourse with the students, by their conversation and style of teaching to give them scholarly tastes, elevate their aims, and inspire them with generous ambition. As to *religious* influences, unless a boy came to College with fixed religious principles already impressed by his mother's hand, there was not much chance of his receiving them there. And yet I know of one graduate who lying on his death-bed in a far Southern State, said that he owed all his religious knowledge and the hope that sustained him then, to the Sunday recitations of Dr. Mitchell and Prof. Phillips. There were no false lights ever hung out at Chapel Hill.

THE COLLEGE CHAPLAINS.

The religious instruction provided has always been of the best. No one will dispute this who remembers to have heard in the College Chapel, Drs. Green, Mitchell, Albert Shipp, Deems, Wheat, Hubbard or Phillips. These preached by turns when all the village met with the students in the Chapel. And when the four village churches were built they were generally supplied with the best preachers in their respective denominations. To preach in Chapel Hill was to preach to critical and appreciative audiences. With such men as Thorn and Wilson in the Baptist Church; Frost and Shipp and Doub in the Methodist; the saintly and now sainted Thomas F. Davis in the Episcopal Church, and Dr. Phillips in the Presbyterian, there was as surely no lack of attractiveness in the church services. That the young men were not more often impressed, and that there was not greater sobriety and more evidences of religious feeling among them, must be attributed to the want of early training at home. All education begins in the cradle. The first ten years of life are the important years, and the boy whose father and mother have not warned him against evil associations and taught him to loathe impurity, and drunkenness, and idleness, will hardly leave College unstained, or without stinging and shameful memories to haunt his best hours in after years.

MORE FALSEHOOD UPON SYSTEM.

"On Monday next the committee of the Union War Prisoners' Association will have an interview with the President concerning the proposed erection of a grand national monument to the memory of thirty-five thousand prisoners who died in Southern prisons during the war. The association contemplate asking from Congress the grant of a public square on Pennsylvania avenue, on which to erect the proposed monument."

Such is the extract we cull from a Radical sheet. Here is the exciting falsehood, that thirty-five thousand prisoners died in "Southern prisons during the war." What is the official evidence that we have, as laid before the country, of a fact that we now assert? It is this: Surgeon General Barnes, of the United States army and War Office: year before last, made a full report on this subject, showing those startling statistics, that, from first to last, during the war, the Confederates captured of Union soldiers and held in Southern prisons, in round numbers 270,000 men; and that the Unionists captured of Confederate soldiers, and held in Northern prisons, in round numbers, 220,000 men. Yet, that there died in Northern prisons, in round numbers 28,000 Southern soldiers, and in Southern prisons, in round numbers, 22,000. Although the Confederates captured and held *fifty thousand* more men than the Union armies captured and held, yet, in Northern prisons, *six thousand* more men died from alleged ill-usage, exposure, and deprivation, than died from the same causes in Southern prisons. It is a striking fact in this regard, that the average per centage of mortality in Northern prisons was greater, because Southern prisoners were mostly taken towards the close of the war, and were therefore the shortest time in confinement. But who is there now in the land that does not know if General Butler is to be believed, that General Grant and Edwin Stanton are directly personally responsible, in large part, for the deaths of Union men in Southern prisons, and particularly for most of the suffering and harrowing misery at Andersonville? General Butler has stated on the floor of Congress, in view of all and every official responsibility attaching to his position as a Representative, as well as in view of every responsibility attaching to his assertion as a man, that after he had arranged with the Confederate authorities for the exchange of the Union prisoners upon the fairest—indeed, upon the most exacting Union terms—the whole arrangement was defeated by the direct interposition of General Grant and Mr. Stanton, upon the ground that *"the exchange would give to General Lee thirty thousand fresh troops,"* which, it is plain, they thought, would hazard the safety of Grant's army upon the Petersburg line, as indeed it would have done, though not probably with much prospect of ultimate success. Yet the best military officers of the South only desired, so they say, one additional full army corps at the back of Lee to have cut in two Grant's great army, and thus prolonged the war indefinitely.

We thus cut the head of this sytematic Radical Hydra off again, as we have repeatedly done heretofore.

In connection with the well-known fact of the cold-blooded neglect of Secretary Stanton and General Grant to send vessels to carry off Andersonville prisoners, as declared by the rebel authorities, without stipulations of any sort as to exchange, and their refusal, also, to provide medicines for them, as also asked by General Ould at Richmond it must be borne in mind that a resolution which was introduced in Congress to ascertain officially as to facts of deprivation and suffering by rebels in Northern prisons was deliberately voted down.

We would simply say to the rancorous and revengeful element of politicians that infest the Executive presence, and promise to raise monuments, and do one and several other things to prolong the hates of the war, provided that they can get office, that a vast number of the very best men in the Republican party are disgusted at their efforts to tear open the wounds that come of civil war. They say, *"Let us have peace!"*—*National Intelligencer.*

SECRETARY BOUTWELL AND WALL STREET.—The Secretary of the Treasury has maintained a silence and pursued a policy have greatly aggravated the Wall street gamblers. He is reticent enough to prevent them from speculating upon his intentions, and fearless though not to be driven by them from what he considers the true administration of his duties. He is jealously watchful of the great mercantile interests of the country, and seems intent upon keeping them free of the violent perturbations which flow from disordered financial measures. One of his latest moves against the gamblers is an order announcing that no news of the department will be communicated until after banking hours.—It will thus appear in the papers next morning and everybody will have a fair chance, should it be of a character to affect the markets.—*N. Y. Herald.*

The following are the comments of the New York *Herald* upon the disgraceful scene which took place at the decoration at Arlington, the other day:

DISGRACEFUL PATRIOTISM.—That officer of marines who so outraged all the decencies of humanity at Arlington, perhaps thought he was in some way commending himself for great zeal to the powers that be; and either he has a most unjustifiable opinion of those powers, or it is a bad omen for the country if they are to be pleased in that way. Does this functionary reflect the views that prevail near headquarters? Is it possible that we cannot see how to be patriots without being brutes? Is it possible that our respect for a great cause requires us to exercise a mean supervision over the actions and thoughts of those whose sorrows differ from ours in their direction? Is this horrible tyranny of a majority to go into the sacred domain of the grave, too, and shall no one be grieved over, or mourned with sentimental usage if he happed to be wrong? Shame on the zeal that pursues a quarrel beyond the grave. In the United states of America freedom has been much cramped for some time, but we have always desired to believe that it was only necessarily so. Permit us, men in authority, to believe that there is still freedom for a woman to go to the grave of her son or her lover and cast upon it a token of remembrance.—If there is not, what better are you than the brutal despots that made Austria a by word among nations?

SPARKLING CATAWBA SPRINGS,

CATAWBA COUNTY, N. C.

THIS CELEBRATED WATERING PLACE, formerly called the North Carolina White Sulphur Springs, will be open for visitors on Tuesday, the first day of June next.

Being situated in the northwestern part of the State, in a country remarkable for its beauty and healthfulness—these, together with the virtue of the waters, make it one of the most desirable watering places to be found.

The MINERAL WATERS of these Springs are the White and Blue Sulphur and Chalybeate or Iron, and they possess all the finest qualities of these waters, and are sovereign remedies for all diseases of the liver, bowels, stomach and kidneys, eruptions of the skin, scrofula, weakness, debility dyspepsia, rheumatism, &c.

The proprietor having spent a large amount in additional buildings and improvements generally, these Springs are now in a fine condition, rooms large and pleasant, and good cottages containing from two to six rooms each, well arranged for either large or small families.

Good TEN PIN ALLEYS, BILLIARD TABLES and other amusements.

FINE BATH HOUSES, for Pool, Plunge or Shower Bath, Sulphur Bath, Hot or Cold.

A GOOD BAND OF MUSIC

Will be at the Springs the entire season, and a good Physician permanently located for the benefit of invalids, who will have every attention.

Having secured the services of Mr. J. N. CANTER, of Virginia, who has had much experience and stands high as a Hotel keeper, visitors may rest assured that my table will be supplied with the best the market can afford, and everything done that will add to their pleasure and comfort.

The cars on the Western North Carolina Rail Road will leave Salisbury for Hickory Station, the Springs' depot, every morning, (Sundays excepted,) in connection with the North Carolina Railroad, avoiding stoppage or delay at Salisbury, and arrive at Hickory Station in time for breakfast, where good hacks will be in readiness to take passengers over a beautiful, well-shaded road to the Springs—a distance of six miles.

As an inducement for families and parties to spend two months or more, I have concluded to put board down at the following low rates:

BOARD:

For one single month,	$30 00
For two or more months, $40 per month, or at that rate.	
Per week,	10 00
Per day,	2 50

Children under ten years of age and colored servants, half price. No charge for infants or children under two years of age.

'*Explanatory Drawing.*—The Drawing by the Real and Personal Estate Agency, anxiously looked for by persons who had taken stock, came off on Saturday, according to published programme. The weather was weeping, but the expectant people were not deterred by that, and went in numbers to Tucker Hall to watch the operation. A good deal of excitement was caused when the owners of lucky tickets claimed their prizes as their number was drawn.

J. M. Blair, Esq., of the Yarborough House, drew the $650 piano; Mr. Wesley Whitaker drew a 50 china set, and Mrs. Pepper, wife of the ex-tenor, drew a $12 hearth rug. Very many of the tickets were sold out of town, and we have not the names of the holders. Every one was satisfied with the arrangements of the drawing, and this augurs well for the grand drawing of which this is explanatory.'—*Standard.*

THE SENTINEL.

LOCAL DEPARTMENT.

THURSDAY, JUNE 3, 1869.

NEW ADVERTISEMENTS.—Superior Rye and Corn Whiskey, at Douglas Bell's.

North American Star Galvanized Lightning Rods: Frank O'Donnell & Co., Agents for Wake County.

TO-DAY WE visited Messrs. Bradley and Christophers' newly fitted up Ice Cream Saloon, just in rear of their store. To those who know these industrious and energetic gentlemen, it would be useless to say how handsomely and tastefully everything connected with their establishment is arranged.

If any one wishes to enjoy a delicious plate of Ice Cream, well and handsomely served up, don't fail to give Messrs. B. and C. a call.

WE CALL attention to the alteration in the advertisement of the North Carolina Real and Personal Estate Agency, and to the fact that another drawing will certainly take place on Saturday next, at Tucker Hall.

EX-CORPORAL and Brevet Brigadier General Byron Laflin, resident of York State, and member of our General Assembly, is in the City.

We have seen, in the last two or three days, a number of the "hands" circulating about our Streets. Wonder what devilitry they are up to now?

PEPPER will on to-morrow and next day, serve to those who may call on him, some of that excellent Turtle Soup, together with fresh and tender steaks.

TRINITY COMMENCEMENT.—By arrangement with the President of the North Carolina Railroad, all visitors to Trinity Commencement, June 8th, 9th and 10th, will pay one fare and receive return tickets.

WE understand that Coleman has, at last, been induced to tender his resignation as Attorney General, and that Vic. Barringer has been selected to fill the vacancy.

THE RECONSTRUCTED FARMER.—This is the title of a new farmer's monthly paper just issued in Tarboro', from the press of Messrs. Charles and Biggs, under the management of Messrs. Thigpen and Dancy, Editors and Proprietors. Edgecombe is the banner cotton county of this State, and agriculture, for some years, has been considerably in advance there to what we find it in other counties. The most intelligent citizens of the county are practical planters and men of all professions there are engaged in farming. This will account, in a great measure for the advanced position in agriculture of Edgecombe county. It is very proper, therefore, that a good farmer's paper should be published in that county and two energetic and respectable farmers should conduct it.

Bernard, the energetic Editor of the Wilmington *Star*, is entitled to the credit of issuing the first paper in the State, after the war, entirely devoted to agriculture, &c. The "Carolina Farmer," by Bernard, and "The Reconstructed Farmer," by Messrs. Thigpen and Dancy, are both monthlies, both well printed, both filled with useful matter, both published at $2 per year.—Let them be supported vigorously and let them labor earnestly to *reconstruct* the Agriculture of North Carolina. We trust they will allow us to suggest the propriety of having their pages filled with original, practical hints from North Carolina farmers, with their names affixed. It is easy to make reprints of other agricultural papers, but the difference in climate, soil, &c., between North Carolina and other States, render practical instruction based upon the experience of our own farmers far more important to our own people, than the most elaborate, scientific and labored papers coming from learned agriculturists in other States.

By the way, while we never favored *political* reconstruction, (for our people did not *need* it nor ever will,) and while we detest with unmitigated horror, the degradation and shame heaped upon our people, by forcible Radical reconstruction or the Radicalization and Africanization of the South, and always shall, and shall teach it to our children and grand children, always to abhor and detest that vilest of all political quackeries and humbugs, the Radical party, yet we hope to see the day, when the Agriculture, Horticulture, and other industrial enterprises of this State shall be entirely reconstructed, redeemed and disenthralled, and when every man shall have learned the art to make three "blades of grass to grow where only one grew before."

THE TRI WEEKLY EXAMINER.—This is the title of a handsome and well-gotten up paper, issued yesterday for the first time, at Salisbury, by Messrs. Nuttall & Stewart. We welcome the *Examiner* to our exchange list, and hope its success will exceed the most sanguine expectations of its energetic and deserving Proprietors.

A SENSATION AMONG THE CLERGY.—On Saturday the public were invited by a published notice to attend the services at Clinton Avenue M. E. Church in the evening, where Rev. Mr Harcourt was announced to deliver a sermon upon the Sunday horse car question. The title of the sermon, as announced in the notice, was "Push, No. 2; Rum, Lager Beer, Our Common Scoundrels, and the Horse Cars." A correspondent informs us that the sermon was "fiery," and denounces in strong language the conduct of a Christian minister in attempting to catch the eye of the public by such a startling title. No little sensation has been caused by the announcement and by the sermon, and the matter came before the meeting of the clergy at St. Paul's M. E. Church on Monday morning. Mr. Harcourt's conduct was severely criticised and denounced as unbecoming and indecent.—*Newark (N. J.) Advertiser.*

CUBAN AFFAIRS.—The Cubans and Cuba sympathizers here are in high spirits over the recent news from that island. During last month three distinct cargoes of arms and ammunition have been safely landed in Cuba, with the strong presumption that a fourth has surely reached its destination; the effect of which, they say, is already perceptible in recent fights, according to Spanish admissions.—*Nat. Intel.*

STATE NEWS.

SUDDEN DEATH.—Hannah Sowell, a colored woman, seventy years of age, was found dead yesterday morning, at her house on East Front Street, near King. One the night before she went to her room apparently in perfect health; but as she did not appear at the usual hour next morning, the people of the house became alarmed and had the bed-room door broke open.—The old woman was found in the floor dead, having broken a blood vessel during the night. Dr. Bates was called on and stated that the remote cause of death was heart disease.

The coroner's jury rendered a verdict in accordance with the facts.—*Newbern Jour. of Com. June 2d.*

AFFAIRS IN JONES.—The latest intelligence from Jones county contradicts the reports published yesterday, and represents affairs there as quiet. No one had been murdered since the killing of Colgrove; though indiscendiaries have not been idle. Besides the house of Mr. Haswell, the gin house of Mr. Shade Loftin and the smoke house of a widow lady whose name we did not learn, have also been destroyed. These were the acts of negroes.—*Newbern Jour. of Com. June 2d.*

EXCURSION.—Messrs. Whitford Dill & Co. having generously placed at the disposal of the committee of arrangements the fine steamer Ellen S. Terry, it has been determined to give an excursion to such of the guests as are now in the city. The steamer will leave the wharf at eight o'clock and steam down Neuse river, returning in time for dinner. The party of excursionists will be large, and refreshments of a nature to make it lively will be carried along.—*Jour. of Com. June 2d.*

SALE OF FRUIT.—Mr. S. M. West, Auctioneer, yesterday sold by public auction a large portion of the fruit cargo of the sloop *Nevada*. Bananas were readily disposed of at prices ranging from twenty-five cents to three dollars per bunch. The whole number sold were about one hundred and sixty bunches. Sixty dozen pine apples where sold at from $1.50 to $1 80 per dozen, and water melons from 20 to 35 cents a piece.—*Wil. Star, June 2d.*

VEGETABLES.—A special train, consisting of eight car loads of vegetables, passed over the W. & W. R. R. Sunday afternoon. The vegetables were from South Carolina, and were intended for the Northern market.—*Wil. Star.*

$5000 BAIL.—James H. Abrams, the white man charged with rape, and who for the last few days has been imprisoned in jail, was yesterday carried before Judge Cantwell with the hope of obtaining permission to give a reasonable bond. The Judge decided that he should give bail in the large sum of $5,000 or else remain in jail. Of course he was forced to accept the latter clause in the gracious permission.—*Wil. Star, June 2d.*

AT HIS OLD TRICKS.—On last Thursday night Mr. Henry W. Hudson, living five miles from Salisbury, had a fine young mare stolen from his stables. The notorious horse thief, John Allen Ketchey, was seen in the neighborhood Thursday afternoon, and he is supposed to have committed the theft.—*Salisbury Examiner.*

John Kelly, one of the negro rogues accused of breaking into the house of Mr. H. Marcus, in this city, over a year ago, was brought from Marion C. H., S. C., by officer Sellars last night and lodged in jail to await examination.—*Wilmington Journal, June 2d.*

SHOCKING ACCIDENT.

From the Minneapolis (Minn.) Tribune.

Yesterday morning about half past nine o'clock, one of the most frightful accidents that we have been called upon to record, occurred at the saw mill of W. E. Jones & Co., at the Falls, and resulted in the instant death of John Henry Willoughby. Willoughby, with another man, by the name of Charles Nichols, was engaged at the shingle mill on the first floor.

During the morning he had occasion twice to put the large belt that drives the shingle machine on to a pulley. The first time he stopped the wheel, but the second time, although cautioned by Nichols not to do it, he made the attempt to put on the belt while the wheels were in motion. In doing it he placed one foot upon a large cross timber close to a heavy six foot iron fly-wheel, that was revolving at the rate of six hundred revolutions a minute, and somehow his foot slipped and was caught by the spokes of the fly-wheel, and in an instant he was whirled round at a rapid rate, striking beams, timbers, and a heavy two inch plank, which was broken to pieces, and spattering his brains and blood in every direction, and tearing and mangling his limbs and body to pieces in a terrible manner. His head and limbs were mangled and torn from his body. His head was severed at the neck, and thrown a distance of fifteen feet upon the floor, while the mangled and broken limbs and body fell through into the water below and passed down under the platform and over the falls, where, with the exception of one arm, they were afterwards picked up and taken to Jones & Co's. office, where they presented a most sickening sight.

THE FRENCH POST OFFICE.

In the days of Louis the Eleventh it was decreed by this sainted monarch that the post office should only carry letters after first having read them. With Sir James Graham this custom vanished. Under Louis the Fifteenth there was the "Black Cabinet," or the Office for the Secrets of Letters, where the King and his courtiers found a pastime in reading what was confided to the post. Louis the Sixteenth, of unhappy memory, abolished this scandal in 1775. At the period of the Revolution there were but 1,419 post offices in France; in 1829, 1,799; at present there are about 36,000. More than 84 000 boxes are emptied of their letters several times per day.—In 1876 the French post office distributed 772,000,000 of letters, journals, &c. Of this mass 342 were letters proper; 4 do., but registered; 116 official and "notices," 305 journals of every nature; and 5,000,000 containing money, jewelry, post office orders, &c., the latter representing a sum of 86,000,000 francs. Between the central office and the various railway termini 260 large sacks of newspaper and book-post matter are daily dispatched. About 1,000 letters daily are received illegible at first sight. These are sent to the "Blind Man" (*l'aveugle*) to decipher, who generally sees his way. Two millions of letters are each year disposed of in the Dead Letter Office. They are destroyed by degrees, after due examination that their contents are unimportant. The French postal service is very complete—its officers men of great intelligence. There are 28,500 employees in the several departments and outstations. The revenue is estimated at 450,000,000 of francs, giving a net gain to the Treasury of 90,000,000.

Pagliari, an Italian chemist, has invented a kind of paper with which carbolic acid is so thoroughly incorporated that the paper, when used to pack animal substances, preserve them in a perfectly fresh state, without salt or any curing whatever.

General News.

The San Francisco *Herald* charges that the appointment of Charles E. De Long, of Nevada, as Minister to Japan, was the result of a "bargain" between Senator Stewart and De Long, made and entered into at the time the latter withdrew from the Senatorial fight in favor of Stewart, and that Senator Nye acquiesced in the appointment of De Long in order to "secure his absence" from Nevada during the next Senatorial contest.

The Democrats have called conventions, to be held during the month of June, in each of the six districts of Alabama, to nominate candidates for Congress.

A bill is before the Canadian Parliament respecting seduction. It provides that seducer, under promise of marriage, of an unmarried female of previous chaste character, shall be punished by fine or imprisonment, or both, at the option of the court, but shall not be condemned on the sole evidence of the female.

In New York city last week, at the yearly meeting of the Hicksite Quakers, Daniel Hill, of Ohio, said that 14 000,000,000 lives had perished by war since the creation of the world—an average of 2,000,000 annually, or 6,000 per day.

Roasting ears of corn are ripe in Hidalgo county, Texas, and it was calculated that the corn crop would be fully matured by the 15th of June.

The Treasury Department has determined to construct four first-class revenue cutters. Proposals for building these vessels will be invited in a few days.

A number of the friends of Mrs. Surratt and Captain Wirz visited Mount Olivet Cemetery Sunday and strewed flowers upon their graves.

A dispatch from Montreal states that thirty two lives were lost by the wreck of the vessels Margaret and Texas on Caribou island, off Anticosta.

The New Jersey State prison authorities have just contracted for the labor of about three hundred convicts, to be employed in shoemaking, at sixty cents a day.

A NEGRO ASSESSOR.—J. W. D. Bland, the saucy Prince Edward negro who represented that county in the Constitutional Convention, has been appointed by the President an assessor of internal revenue in the fourth district.—*Rich. Dispatch.*

A. J. Hamilton declares his intention to run for Governor of Texas, whether the political organizations nominate him or not.

Grasshoppers are ravaging portions of Arizona.

A singular disturbance occurred in a court-room at Greensburg, Ind., a few days ago. A Mr. Ewing, a lawyer of that place, is arguing against a new trial in a bastardy case, used language that was distasteful to the Judge, whereupon the latter assaulted the former, inflicting dangerous if not fatal injury. The Judge, Bonner by name, was arrested, and is now in jail awaiting the result of Ewing's injuries.

Prince Louis Ferdinand de Bourbon, of Naples, nephew of ex King Ferdinand, was married privately on Friday to Senorita Amelia Hamsel, of Havana, by the Rev. Dr. Wiseman, in St. Peter's church, Jersey City. The same couple were married some time ago under peculiar circumstances by Justice Dodge, in Jefferson Market Police Court.

On the 18th instant, a young lady, aged 14, living in a very aristocratic region, in this city, was taken suddenly ill, and appeared in such extreme pain that the family became alarmed, and sent in all haste for a physician. He came in all haste, and after glancing at his patient, requested the parents to leave him alone with her; they did so, and, in half an hour, another young lady opened her eyes for the first time on this world of sorrow. She made such a noise coming into the world that the parents' attention was attracted, and the Doctor informed them that they had better send for a nurse, as mother and child were "doing as well as could be expected." Great consternation reigned. On being closely questioned, the young mother placed the paternity of the stranger upon a lad of 15, who was then at school.—Charley was sent for, and blubbered like a baby. There were then in the room a father, a mother, and a child, whose united ages amounted to only *twenty nine*.—*New York Evening Express.*

HOW A WOMAN KEEPS A POST OFFICE. Mrs. Kesia B. Johnson was lately appointed Postmistress of Leavenworth, Kansas, and the local papers say that she commenced operations without a box, desk or table, tumbling the mails all over the floor, simply because she got huffy, and wouldn't buy, borrow, or take as a gift the fixtures of her predecessors. Consequently, the office had to be shut up for a day, and was not opened until the business men of the city, by a united effort, prevailed upon her to take the furniture, and get matters into some sort of shape.

ALLIGATOR RACE.—The enterprising citizens of Jacksonville, Fla., have been amusing themselves with an alligator race. Five young animals were entered; the purse was $50, best two in three. Spotted Tail, a frisky youngster, bolted the track, and "went for" the spectators. The Gazelle and Boston Boy acted in the same unseemly manner, and thereby lost a good place on the track and were outstripped by Nimble Jack and Champion Maid. At the second heat, Champion Maid came in ahead, but at the third Nimble Jack again did justice to his name. All the animals are in training for another race to come off in a few days.

A negro from Ohio was admitted on the 21st inst., to practice law in the High Court of Errors and Appeals of Mississippi.

It is estimated that there are 38,000,000 hogs in the United States.

The Ohio Republican State Convention will be held on the 23 d of June.

Kansas City has a man 118 years old, who is able to cultivate his garden.

It is predicted that the Plains will be stripped of buffaloes in five years.

The whole number of divorces in the State of Connecticut for 1868 was 468.

A company of United States troops, and composed of over one hundred, rank and file, has been sent to Tuscaloosa, Ala., probably in consequence of the slanderous report of the people of that city, which has since been retracted or disclaimed by its reputed author. The *Monitor* says that the troops are so far orderly and well behaved, that they are Western men, and do not associate with negroes.

THE GREEKS AT THEIR OWN DOOR.—The Working Women of Boston, at their meeting some time since, adopted this sensible resolution:

Resolved, That the white women and girls who in day-give a long and hard day's work for twenty five cents in currency, are quite as much the object of Christian and benevolent sympathy as were the negro slave women of the Southern rice swamps.

LAST NIGHT'S DISPATCHES.

FROM WASHINGTON.

WASHINGTON, June 2.—Pennsylvania claims that cigars manufactured by convicts should be exempt from taxation. The claim will be rejected on the ground that convicts might make whiskey.

Several New York bankers claim that the bulk of their capital used for carrying stocks and bonds, thus acting as brokers, should be exempt. The claim was unfavorably received, but not yet decided.

Revenue to-day $691,000.

The *Evening Star* says the Secretary of War has communicated to the President of the New Orleans Chamber of Commerce the perfect harmony of the Government with the wishes of the Commercial Convention respecting the improvements of the Mississippi.

Total debt, principal and interest, $2,638,670,653.40. Amount in the Treasury: coin belonging to the Government, $81,839,449.49. Coin for which certificates of deposit are outstanding, $23,340,720.00. Currency, $19,994,552.07. Sinking fund in bonds, bearing coin interest, and accrued interest thereon, $3,093,190.43. Total $128,268,089.98. Decrease of public debt during the past month, $13,994,777.97. Decrease since March 1st, 1869, $20,009 646.99.

FROM NEW ORLEANS.

NEW ORLEANS, June 2.—The President of the Chamber of Commerce has received a dispatch from the Secretary of War stating that the views of the Government as to the importance of improving navigation at the mouth of the Mississippi river are in accordance with those of the Commercial Convention, and that the suggestions of the latter relative to the dredge boat now at work will be complied with. The dispatch was in response to resolutions telegraphed by the President of the Convention.

ENGLAND.

LONDON, June 2.—During proceedings in the House of Commons in regard to Canada and other British provinces in North America, Verney inquired what the policy of the Government would be toward American colonies. Mussell replied, while he declined to enter on the colonial policy of the Government, he intimated that the Government policy was to throw the costs of self-defence on each colony, and that measures to that end had been partially taken and would be extended until next year. He had no doubt the arrangement for the cession of the Hudson Bay Company's territory would receive the ratification of the Canadian Government. The question was not one of purchase only, but also of development, of colonization and civilization, which hitherto had been virtually closed. If the scheme was successful, the Dominion would be able to extend from the Atlantic to the Pacific. It was believed that all the interests of British Columbia lay in connection with Canada, and every facility would be given to forward them.

Mr. Northcote thought that the Canadians were better able to decide for themselves than to act on the advice of the Government. He believed the question would soon be satisfactorily settled.

Mr. Bury regarded Canada as the future highway to the Indies and the East. He ridiculed the idea of annexation to America, and said by such a course we had everything to lose and nothing to gain.

Mr. Adderley regarded the arrangement as eminently satisfactory, on the principle that he generally disapproved of the system of government guaranties. For that reason he would vote in favor of these measures.

The *Times* understands that no new demands have been addressed to England, and Mr. Motley entered upon his duties without any prospect of a controversy, but, at the same time, says the English Government should examine any new proposals and see if they promise a just and equitable solution. If the neutrality proclamation is made a subject of negotiation, we are bound to listen to the argument adduced, though it is impossible that any good purpose would be served by raising such a discussion.

The Pall Mall *Gazette* has a very snobbish article on the subject, boasting that America backed down before British pluck, and that under these circumstances the arrival of a new Minister is of small importance, and the best result anticipated from Mr. Motley's mission is, that his duties will afford him sufficient leisure to prosecute his historical studies.

AFTERNOON DISPATCHES.

FROM WASHINGTON.

WASHINGTON, June 3, M.—Letters from Cuba received here this morning, state the force under General Jordan had succeeded in joining the Cuban forces after several fights in all of which the Spaniards were repulsed with serious loss.

Gen. al Jordans loss was slight—not over forty-five is killed and wounded. He saved his artillery and arms and ammunition. He had with him seventeen hundred rifles, new and of the most approved pattern.

FOREIGN.

LONDON, June 3, M.—The Alabama diplomatic correspondence is published, commenting on which the *Times* says: "When we compare the exacting and critical spirit of America with the conciliating temper of England, and consider that all that was yielded was insufficient to prevent the rejection of the treaty, we despair of the success of any negotiations in which England maintains due regard for her own rights and honor.

HAVANA, June 3, M.—The agitation in the city has partially abated. Dulce resigned this morning. Don Jupitor is acting Captain General until the arrival of De Rada.

The city is tranquil but disorder threatens to break out at any moment, as the volunteers are greatly incensed against General Prieto, who has disappeared, whereabouts unknown. Great anxiety prevails. The Vascon volunteers arrived in port to-day.

MADRID, June 3 M.—The Cortes has adopted the Constitution.

Topete informed the Cortes that six hundred Cuban prisoners had been sent to Fernando, and are soon to be transferred to the Canaries.

A motion, reducing the standing army to 25,000, was lost.

General O'Donnell, while speaking against the motion, was seized with apoplexy and died in the Chamber.

Figuras announced that though opposed to monarchy, the Republicans would support and follow the Constitution.

ROBERT SOUTTER, OF GRANVILLE COUNTY, realizing the importance of spreading the growth of Wheat in this County; and the farmers, knowing so well the absolute necessity of supplying themselves at an early period with "Seed Wheat" of the finest quality, ready to plant in the Fall, the undersigned takes this early method of inviting applications from farmers, for what they may require to plant next Fall, of the very "Select Seed Wheat" which he expects to deliver at moderate prices, from the crop growing now at his "Oakland Farm" near Townesville, in this County.

This Wheat was planted last Fall, with Guano, of seed selected in Baltimore with great care by my predecessor, Mr. Chas. H. B. Taylor, who paid $3,25 for it there. It has had the advantage of a heavy top-dressing in Spring of Chicago bone Fertiliser, and is now very promising.

Like the good Sorghum Seed which I have offered to the farmers of Granville, I hope the orders for my "Seed Wheat" may be equally attractive, to absorb all that I can expect to spare of it.

Address me at Kittrell's Springs, or Mr. Thos. W. Taylor at Oakland Farm.

BROOKLYN LIFE!

"A Company that makes such endorsements on its policies, gives the strongest pledge that it will fulfil its trust faithfully, and keep its reserves sufficient."—HON. ELIHU WASHBURN.

"The BROOKLYN LIFE has placed itself in the vanguard of insurance reform, and is the first Company that has done full and complete justice to the insured."—INSURANCE TIMES, Jan. 1869.

THE BROOKLYN LIFE, ALONE OF ALL OTHER LIFE INSURANCE COMPANIES, GUARANTEES A DEFINITE SURRENDER-VALUE IN CASH, AND EVERY POLICY ISSUED BY THAT COMPANY, BEARS A CERTIFICATE STATING WHAT THIS EXACT WORTH WILL BE IN DOLLARS AND CENTS, AT ANY TIME, AFTER THE PAYMENT OF TWO OR MORE PREMIUMS.

"The BROOKLYN LIFE has made no half-way work of the adoption of this inestimable feature. It is noteworthy, in this connection, as a merited tribute to the excellent Company (Brooklyn Life,) which has so gallantly raised the standard of reform in Life Insurance, that we find in the whole list of existing Companies, few competitors which deserve so much credit in respect of economy of management, or care, skill and judgment in the selection of risks."—INS. Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have, and can show, thousands, upon thousands of certificates of remarkable cures of the following complaints, but such cures are known in every neighborhood, and why should we publish them? Adapted to all ages and conditions in all climates; containing neither calomel nor any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia or Indigestion, Listlessness, Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change these complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. There are numerous cases where a purgative is required, to which we cannot enumerate here, but they suggest themselves to everybody, and where the virtues of this *Pill* are known, the public no longer doubt what to employ.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that it is unnecessary to publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

TOO LATE.

"*Ah! si la jeunesse savait—si la vieillesse pouvait!*"

There sat an old man on a rock
And unceasing bewailed him of Fate—
That concern where we must all take stock,
Though our vote has no hearing or weight;
And the old man sang him an old, old song,
Never sang voice so clear and strong
That it could drown the old man's long
For he sang the song "Too late! Too late!"

"When we want, we have for our pains
The promise that if we but wait
Till the want has burned out of our brains
Every means shall be present to slate;
While we send for the napkin the soup gets cold,
While the bonnet is trimming the face grows old,
When we've matched our buttons the pattern is sold,
And everything comes too late—too late!"

"When strawberries seemed like red heavens—
Terrapin stew a wild dream—
When my brain was at sixes and sevens
If my mother had "folks" and ice-cream,
Then I gazed with a liquorish hunger
At the restaurant man and fruit-monger;
But oh! how I wished I were younger
When the goodies all came in a stream—in a stream!

"I've a splendid blood horse, and liver
That it jars into torture to trot;
My row-boat's the gem of the river—
Great makes every knuckle a knot!
I can buy boundless credits on Paris and Rome,
But no palate for means—no eyes for a dome—
Those belonged to the youth who must tarry at home
When no home but an attic he'd got—he'd got.

"How I longed in that locust of garrets,
Where the tiles baked my brains all July,
For ground to grow two pecks of carrots,
Two pigs of my own in a sty,
A rose-bush—a little thatched cottage—
Two spoons—love—a basin of pottage:
Now in frescoes I sit—and my dotage—
With a woman's chair empty close by—alone by!

"Ah! now, though I sit on a rock,
I have shared one seat with the Great;
I have sat, knowing naught of the clock,
On Love's high throne of state;
But the lips that kissed and the arms that caressed
To a mouth grown stern with delay were pressed,
And circled a breast that their clasp had blessed
Had they only not come too late! too late!"

Fitz Hugh Ludlow, in Harper's Magazine.

LIFE INSURANCE.

NATIONAL

LIFE INSURANCE COMPANY,
OF THE
UNITED STATES OF AMERICA,
WASHINGTON, D. C.

Chartered by Special Act of Congress, Approved July 25th, 1868.

CASH CAPITAL,
$1,000,000,
PAID IN FULL.

It is no longer a question with any man, who tenderly loves his wife and children, who considers how helpless would be their condition in case of his death, as to the duty of taking out a LIFE POLICY, but as to which Company he shall pay his money.

If he reflects a moment he will conclude to patronize the Company which shows the greatest degree of vitality, which extends its business over the largest area, which is a Home Company in every locality; which furnishes insurance at the least cost; which issues no policies that are forfeitable should he be unable next year, or any subsequent year to pay his renewal; and which is undoubtedly able to meet ALL ITS PROMISES.

With these feelings and views, he looks over the newspapers and, by the time he gets through reading the advertisements of Mutual or Mixed Companies, he finds his mind so fuddled that he is at a loss where to go or what to do. He can not comprehend one-half that is written, and concludes that none but Actuaries, who are familiar with the principles upon which Life Insurance is based can comprehend or explain anything about dividends and his liability for notes given in part payment of premiums. In his dilemma, he roots into the plan adopted by the

NATIONAL
LIFE INSURANCE COMPANY,
U. S. A.,

and finds just what he wants:

An ALL-CASH PLAN, reduced to the LOWEST MINIMUM Rate, like any commodity in Market, so much Insurance for so much Money. No notes to give; no interest to pay; no anxiety about Assessments; no apprehension of his Policy being forfeited next year if he does not pay his annual Renewal; and the RATES so much LOWER than other Companies, that he realizes a larger Dividend, IN ADVANCE, than other Companies can pay him in the future.

He finds that, instead of this UNCERTAIN PROMISE, and present high rate, that the

NATIONAL

presents a certain and definite sum for a much lower rate, and puts up its paid up Capital of

$1,000,000

as a guarantee fund, that its contracts will be fulfilled, and, like thousands of others, cheerfully calls on their Agent to make his application for a Policy. Hence the unprecedented and most wonderful success of the NATIONAL as contrasted with the older and Mutual Companies.

The Company issued its first policy on the 1st of August, 1868, and up to March 1st, 1869, it had issued 3,582 policies.
Amount insured, $10,005,550.00
Total Premiums, 250,117.63

The whole number issued by the Connecticut Mutual in the first year of its existence was 892
By the Mutual Benefit of New Jersey, 691
" New England Mutual, 343
" Phoenix Mutual, 335
" Massachusetts Mutual, 312
" Equitable of New York, 277

The Mutual Life, of New York, in the first year of its existence, only issued 470 policies.
In its 10th year, $1,300
And in its 20th year, 2,842
this latter being 690 less than was issued by the NATIONAL in its first seven months.

Sentinel.

PUBLISHED AT THE

CAPITAL OF THE STATE,

Daily, Semi-Weekly and Weekly,

NEW ARRANGEMENT.

The RALEIGH SENTINEL having passed under the Editorial management of the undersigned, it will, from the present date, be conducted by him.

It will be the zealous and fearless advocate of the CONSTITUTION of the United States, seeking to bring the people back to their ancient reverence for that immortal instrument, and to restore the policy of the country to that honored standard, as the only guarantee of National prosperity.

It will do justice to the men and measures of the present day, whenever they may merit it, but it will unsparingly lash and denounce all who set themselves up in opposition to the Federal Constitution, and hold up to the public indignation corruption and imbecility in high places.

It will ardently seek the promotion of the best interests of North Carolina,—moral, educational, material and political.

THE LATEST NEWS

From every quarter, both by mail and telegraph will be carefully collated and presented.

Full and correct market and financial reports will be given.

And, in one word, no effort will be spared to make the SENTINEL, in all respects, a reliable

FIRST CLASS NEWSPAPER.

Feb 11-tf J. A. JONES, Raleigh, N. C.

CAUTION! WE desire to warn the dealers in, and consumers of Snuff generally, that since the war, certain Tobacco Manufacturers, being unable to find a market for their snuffs, felt themselves obliged to counterfeit the general appearance of our packages, and imitate our Trade Marks so that a close inspection is necessary to detect the spurious article from the genuine, and others going so far as to assert that "Lorillard's Snuff is no longer made."

In making this publication we desire to warn the public against the impositions practiced upon them, as they are the losers thereby. It will be found, upon comparison, that Lorillard's Snuff is "far ahead" of all others, being made of the best stock, after an original and secret process known only to ourselves, besides possessing great age, strength and pungency, and is warranted not to contain any dangerous or deleterious substances, which cannot be said of many worthless articles put on sale by others. The best is the cheapest in the end. A circular will always be mailed on application. In ordering please specify if Salt Snuff (High Toast,) or Fresh Snuff (Extra Scotch) is desired.

NEW METHOD OF WASHING CLOTHES WITHOUT LABOR.

THE AUTOMATIC
CLOTHES WASHER AND BOILER.

THIS BOILER IS MOST EFFECTUAL, reliable and universally recommended. It can be used on any Stove or Range, in any boiler, and the low price of the article places it within the reach of every family.

This Boiler operates upon purely philosophical principles, is self-acting, and dispenses with labor and the wear of the clothes.

The hot suds and steam, by the action of heat, are driven up through tubes, poured upon the clothes, and forced through the fabric with astonishing rapidity, cleansing all articles, from the finest laces to the bed-blanket. For Flannels it is invaluable, as it does not full them as in the old process of rubbing and pressing.

The time required for cleansing a boiler full of clothes is twenty to thirty minutes, and nearly three hundred gallons of boiling suds are forced through the boiler, thoroughly loosening and eradicating the dirt WITHOUT LABOR or friction.—A thorough cleaning follows the process.

Washing day will no longer be a terror and dread to housekeepers. The cost of the Boiler will soon be returned in the SAVING OF TIME AND LABOR, and the great saving in the wear of clothes.

The great value of this invention appears so clear, and appeals so directly to common sense, that we have deemed it unnecessary to accompany its introduction with numerous letters of approval, &c.

No invention has met with such ready sale and given such satisfaction. Call at LOUGEE & BROTHER'S, and see its wonderful operations.—We have the exclusive right to sell and manufacture in the state.
